TAKING THE LEAD

CONFIDENTIAL APPLICATION: 2014 COHORT

COMMITMENT

PROGRAM COMMITMENT UNDERSTANDING:

You will be pleased to know that participation in the Leadership CREW program will require very little preparation of materials outside of the classroom. Note-taking and journaling for the development of your strategic plan will be allowed for during the monthly sessions, although you are encouraged to invest time as needed to make the most of this opportunity.

Our current programming will require you to complete two questionnaires that enable our instructors to provide an evaluation of each participant's leadership strengths and styles. Other than that, only your active participation in attending the Leadership CREW sessions is required.

As in the case of all similar leadership programs, we have established an attendance policy. Due to the cohesive nature of the entire program, missing more than one (1) session will result in the participant not graduating (but the participant will be permitted to attend all remaining sessions). As a nominee for the program, we ask that you have the support and commitment of your sponsoring business or organization (if applicable). Please indicate this below with your signature and that of your supervisor. If you are submitting the application electronically, please scan and email the signature page.
